## Testing Requirements for Admission and Graduation Tests Required for All Licensure Areas

All candidates must present qualifying scores on *Praxis I*® Pre-Professional Skills Tests (PPST®) or meet the SAT Reasoning Test, ACT test or *GRE*® General Test requirements.

If you wish to take all three computer-delivered *Praxis I* exams (5710, 5720, 5730) at the same time, select *Praxis I* Pre-Professional Skills Test: Combined Test (5750) when registering. Scores will be reported by individual test (5710, 5720, 5730).

In place of the *Praxis I* (PPST), Maryland will accept the following options from candidates:

- The College Board's SAT Reasoning Test™ taken after 2005: combined math and critical reading score of 1100
- The SAT Reasoning Test taken between April 1995 and January 2005: combined math and verbal score of 1100
- The SAT Reasoning Test taken prior to April 1995: math and verbal (critical reading) score of 1000
- The ACT® composite score of 24 (ACT composite score is the average of the tests)
- The GRE® revised General Test: composite of the combined verbal and quantitative score of 297. Candidates who took the GRE® test prior to September 2011 will use the old composite score of 1000.
